- Various rig spread configurations are easily attained.
- Smaller 25kg 0.67m² ALIMAT® modules are available.
- Cost effective nationwide short and long term hire rates.
- Finite element analysis for the 500 tonnes/m² compressive design strength.
- Physical compression loading test certification for 1000/m² with no visible signs of deformation.

Please do not hesitate to get in touch should you require any further information.
